Looking for close proximity to everything you need? This might be the one for you. This haven has been meticulously well maintained with the replacement of roof, new windows in some areas, updated dishwasher and microwave along with the interior AC unit over the last few years! So nothing major to do. It showcases a spacious den with wood burning fireplace and custom plantation shutters, open kitchen with raised panel stained cabinets and stainless appliances. Master suite with plenty of storage including walk-in closets, a guest bath downstairs and two more bedrooms upstairs with a full bath. To finish off this gem of a home, there is a two car covered parking space and a courtyard area perfect for entertaining or peaceful evenings. Move-in ready, functional and yet adorable in a very demanding location. Come and check it out.
