Cash only! Being sold AS-IS! Corner lot! No HOA! Plenty of concrete for extra parking! The concrete slab near the right property line does go with this house, so there is a sizeable side yard. This home is a one-owner home. It was built in the late 50s. The living room is spacious and has lots of windows that allow natural light in. The kitchen has ample cabinetry, two pantry closets, and a window over the sink. Two of the bedrooms have real wood floors. The third bedroom is large and has a walk-in closet. The former owner used it as a dining room. The utility room is a great size. The outbuilding is also a great size.
