3 Bedrooms | 2.5 Bathrooms | 2,023 Sqft

Welcome to this custom-built contemporary cottage in Stonehaven on the River. This distinctive 3 bedroom, 2.5 bath home offers 2,023 square feet of thoughtfully designed living space, now enhanced by a newly completed renovation that transformed the former half bath into a spacious full guest bath with dual vanities and a tub/shower combination. The brick and stucco exterior, modern glass-panel garage door, and refined architectural lines create memorable curb appeal. Inside, vinyl plank flooring flows throughout the open-concept living and dining areas, where crown molding, recessed lighting, and abundant natural light create a warm, sophisticated atmosphere. The spacious layout is ideal for entertaining and everyday living, while the newly expanded full bath is conveniently located just off the main living area. At the heart of the home, the custom kitchen blends style and function with a built-in full-size refrigerator and freezer, stainless steel wall oven and microwave, gas cooktop, undermount sink, designer faucet, and large eat-in island. Generous cabinetry and expansive prep space make the kitchen as practical as it is beautiful. Nearby, a built-in desk nook provides flexible space for remote work or study and is one of two integrated workstations in the home. Centrally positioned for privacy, the primary suite offers a peaceful retreat.
