4 Bedrooms | 2.5 Bathrooms | 2,000 Sqft

Tucked at the quiet end of a cul-de-sac, this four-bedroom, two-and-a-half-bath home wears its cream-white exterior with modern contemporary confidence -- the kind of house that turns heads without trying too hard. Inside, vaulted ceilings soar overhead while a loft adds an unexpected layer of possibility. Stained wood trim accents warm every room, and the brick fireplace, dressed in custom navy blue trim, becomes an instant conversation piece. Two thousand square feet flow with genuine character, blending clean lines and cozy details in equal measure. The primary suite pampers with a deep soaker tub and a separate walk-in shower, so you can choose between a long soak or a quick rinse depending on the day's mood. Upstairs, a second-story balcony invites slow mornings -- picture yourself sipping coffee while gazing over a meadow and a stand of gorgeous live oaks. Speaking of those oaks, the huge backyard is the real showstopper. Shaded, sprawling, and framed by mature trees, it practically begs for weekend gatherings. A large covered rear patio extends your living space outdoors, rain or shine. Location keeps everyday life effortless. Rouses Market handles grocery runs in minutes, Acadiana Mall covers your shopping fix, and LARC's Acadian Village offers a charming nearby escape into local history. Homes with this much personality
