Beautifully refreshed and full of character, this 4-bedroom, 2-bathroom home in Youngsville offers a welcoming open-concept floor plan with thoughtful updates throughout which include interior paint, updated light fixtures, and decorative wood accent walls in the living room, kitchen, and bedrooms add warmth and personality to the space. The kitchen features granite countertops, birch cabinetry, and ample workspace, while the spacious primary suite offers a relaxing retreat with a garden tub, separate shower, and two walk-in closets. Custom painting in the bedrooms, primary suite, and laundry room adds unique touches throughout the home. Outside, the extended covered patio features a roofline seamlessly integrated into the home's existing roof structure, rather than a traditional attached patio cover, creating a cohesive architectural design and a comfortable space for outdoor entertaining. Decorative rock landscaping surrounds the patio, while a landscaped flowerbed in the front yard adds to the home's curb appeal. Custom shutters and a spacious front porch complete the exterior. With its blend of functional living spaces, charming details, and improvements, this home is ready to welcome its next owner!
