Timeless, extraordinary, and classic are ways to describe this one of a kind Acadia Parish homestead. Sitting on just under 16 acres and built in 2024, you will find this home tucked away for privacy at the end of a long driveway. It boasts a front porch reminiscent of Acadian style homes as well as a back porch spanning the width of the home. Enter into the spacious living room with a gas fireplace with antique mantel and a refurbished cover from the 1800's, which is open to the kitchen, customized with no wasted space. It offers appliances with old style charm including double ovens and warming drawer, integrated refrigerator freezer to add a sleek look, pop up outlets with usb ports on the island, a cabinet to house your stand mixer, and many more details to see in person. The kitchen flows well into the classic dining room, with extra storage under the stairway. Custom fixtures were sought out by the homeowner and meticulously selected for each space. There is even a chandelier elevator above the stairway to keep those crystals shining. The primary ensuite offers separate closets with built in hampers, a claw foot tub, large tiled shower, and cast iron sinks. Downstairs find a half bath with a charming vanity, and a carefully laid out laundry room with pull out table, pullout hampers, even a built in kennel. Upstairs offers space for everyone: an open sitting
