4 Bedrooms | **3** Bathrooms | **2,902** Sqft

This custom-built, two-story French-style home has 2, 902 sq ft of living space on a 0.27-acre lot and blends traditional character with a modern feel. The open-concept living room flows into the kitchen and dining areas. It has high, varied ceilings, crown molding and a fireplace. The kitchen has solid wood custom cabinets, a large granite island with room for barstools, and a big walk-in pantry. A split floor plan gives everyone privacy. The primary suite is generously sized and includes a flex area that works well as an office, reading nook or nursery. Its bath has a jetted soaking tub and a separate shower. There's also a dedicated office. Most downstairs rooms open onto the front courtyard or the covered back patio, so indoor and outdoor living blend easily. Other features include stained concrete floors, two HVAC units, gas heat and a two-car garage.
